## SMART SOLUTION SYSTEM

### SMART LIGHTING CONTROL SYSTEM

Lighting controls play a critical role in electric lighting systems, providing the function of: Turning the lights on and off using a switch; and/or Adjusting light output up and down using a dimmer

### IPTV & SMATV SYSTEM

IPTV (Internet Protocol Television ) is a system where digital television services are delivered over the internet by using Internet Protocol. The video channels and programs are delivered to the television sets through a broadband connection, instead of being delivered through the conventional cable or broadcast formats.
